

## **U.S. Government Provisions and Clauses for Orders under U.S. Government Contracts**

### **1. General**

- 1.1 If an Order is placed at any tier under a Prime Contract awarded by the U.S. Government, additional U.S. Government provisions (“U.S. Government Contract Clauses”) shall apply. In the event of a conflict between a provision in this document and Buyer’s Standard Terms and Conditions of Purchase, this document shall control to the extent permitted by law. Terms not defined herein shall have the meaning ascribed to them in Buyer’s Standard Terms and Conditions of Purchase.
- 1.2 While Buyer has made every effort to include every potentially applicable U.S. Government Contract Clause in this document, U.S. Government Contract Clauses, the inclusion of which in a subcontract is mandatory under a statute or regulation, shall be considered to be included by operation of law, even if it has been omitted from the Order.
- 1.3 Supplier shall incorporate the applicable U.S. Government Contract Clauses in each lower-tier subcontract placed in support of this Order.
- 1.4 Supplier shall indemnify and hold Buyer harmless from and against any cost, price reduction, withholding, offset, penalty, interest, claim, demand, determination of unallowability or unallocability, or any other civil, criminal, or administrative liability, whether arising under statute, regulation, contract or common law, and shall reimburse Buyer for all of its damages and associated costs, including reasonable attorney fees and other expenses, if said liability is attributable to the Supplier or Supplier’s subcontractors’ failure to comply with the applicable U.S. Government Contract Clauses.
- 1.5 Notwithstanding any other provisions in this document, Supplier shall comply with, and shall support Buyer’s compliance with, any applicable U.S. Government procurement regulations and policies, including (but not limited to) those concerning furnishing and certifying the currency, accuracy, and completeness of cost and pricing data for the Goods/Services. Supplier agrees to furnish cost and pricing data certified as to currency, accuracy and completeness every three (3) years, or as frequently as required by Buyer’s Customer. To the extent the prices under the Agreement and/or Order for the Goods/Services are at any time not supported by Supplier’s cost or pricing data, Supplier agrees to negotiate fair and reasonable prices for the Goods/Services and to incorporate such prices in the Agreement and/or Order. In no event shall any renegotiated unit price for any of the Goods/Services exceed the unit price incorporated herein for such Goods/Services.

## **2. Price Reduction for Defective Cost or Pricing Data**

The following provisions shall apply to all Orders for which Supplier is required to submit cost or pricing data pursuant to the Truth in Negotiations Act (“the Act”). A “determination” by Buyer’s Customer means a final decision of a Government Contracting Officer or the withholding of money, reduction in any cost, price or fee from Buyer by a customer based on an alleged failure of Supplier or its subcontractors to comply with the Act.

- 21 Supplier shall reimburse Buyer for any loss or damage in the event that Buyer’s Customer makes a determination pursuant to the clause(s) in, or required to be in, Buyer’s Prime Contract related to the Act or its implementing regulations because: (i) Supplier or a subcontractor of Supplier failed to furnish cost or pricing data, including any requested data, that is required under the Act or its implementing regulations; or (ii) Supplier or subcontractor of Supplier furnished cost or pricing data that was not complete, accurate and current as certified, or as required to be certified, in the Supplier’s or its subcontractor’s certificate of current cost or pricing data.
- 22 The sums paid or payable to Supplier under this Order may be reduced or setoff in the amount by which the sums received or receivable by Buyer from Buyer’s Customer (including, but not limited to, the allocable share of Buyer’s indirect costs and profit or fee) are reduced based upon such determination.
- 23 If an appealable decision is made by a Contracting Officer of the U.S. Government relating to cost or pricing data required to be submitted, or actually submitted, by Supplier or a subcontractor of Supplier, such decision shall be conclusive upon Supplier, unless Buyer, in its sole discretion, gives Supplier the opportunity to appeal such decision in the name of Buyer. Any such appeal brought by Supplier in the name of Buyer shall be at the sole expense and responsibility of Supplier. If Supplier is given the opportunity to so appeal and elects to do so, Supplier shall, upon Buyer’s written request, provide to Buyer advance copies of papers to be filed in such appeal and such other information, consultation and opportunity to participate in the appeal as Buyer may reasonably request. Supplier shall be conclusively bound by any decision of any such Board of Contract Appeals or Federal Court.

## **3. Inspection of Books and Records**

- 31 Supplier agrees that its books, records and facilities, or such parts of its facilities as may be engaged in the performance of this Order, shall at all reasonable times be subject to inspection and audit by Buyer or any authorized representatives of the U.S. Government.
- 32 Supplier hereby grants to Buyer the right to examine its books, records and data which will permit the adequate evaluation of cost and pricing data used to arrive at the price quoted in this Order (including without limitation claims/proposals

submitted pursuant to the Clauses entitled Changes and Termination for Convenience).

- 3.3 Supplier hereby grants to Buyer the right to conduct audits of Supplier's premises, records, data and documentation pertaining to: quality, inspection and testing of Goods; security and data protection procedures; ethical practices; and, any other requirement or obligation, under this Order.

#### **4. Orders Involving Government Property**

- 4.1 Title to facilities, special test equipment and special tooling acquired, fabricated or procured by Supplier for Buyer under this Order shall pass to and vest in the Government or Buyer (depending on the line item under which it is acquired) when its use in performing this Order commences or when Buyer has paid for it, whichever is earlier, whether or not title previously vested in the Government or Buyer. The Government shall retain title to government-furnished property.
- 4.2 If this Order contains a provision directing Supplier to purchase material from a vendor for which Buyer will reimburse Supplier as a direct item of cost under this Order, title to material purchased from the vendor shall pass to and vest in the Government or Buyer upon the vendor's delivery of such material to Supplier, and title to all other material shall pass to and vest in the Government or Buyer upon: (i) issuance of the material for use in Order performance; (ii) commencement of processing of the material or its use in Order performance; or (iii) reimbursement of the cost of the material by Buyer, whichever occurs first.
- 4.3 Supplier shall establish and maintain a system acceptable to the Buyer and the Government and in compliance with FAR Part 45, FAR 52.245-1 and DFARS Part 245 to control, protect, preserve, repair and maintain Government Property. Government Property shall be used only for performing this Order, unless otherwise provided in this Order or approved by the Government.

8. Our suppliers and their multi-tier supply chain provide materials for government rated contracts. BRM would like to ensure all of their suppliers are recognizing the DPAS ratings connected government rated contracts. This DPAS rating should be flowed down to all subcontractors to ensure alignment of priority for each procurement.

It is essential that suppliers comply with the U.S. Government's Defense Priorities and Allocations System (DPAS), 15 CFR 700.

The purpose of DPAS is to assure the timely availability of industrial resources to meet current national defense and emergency preparedness program requirements. The Defense Production Act of 1950 authorized the President to require preferential treatment of national defense programs. Executive Order 12919 put the Department of Commerce in charge of the DPAS program and 15 CFR 700 provided rules for the DPAS program.

Please ensure all tiers of your supply chain have a strong understanding of these DPAS requirements.

Please review the full text of the subject clause (15 Code of Federal Regulations (CFR) Part 700).
